

The Communicator May 10, 2023 Special Edition

It is with great joy that I forward on this letter just received from Father Doug.

“On this Mother’s Day it is a joy to say that Veronica’s elder daughter, Maria Fernanda, age 29, is healing in the Querétaro Hospital’s ICU. Veronica and many other family members are with Maria Fernanda at the hospital around the clock.

“The Physicians say that her five month pregnancy, though still at risk, is progressing. Veronica believes that this second grandchild is a strong survivor (and may be a boy- who knows?)

“On this sixth day of hospitalization everything is looking up.

“Veronica and I weep with joy at the outpouring of love and prayers by this congregation of Angels. God bless you. Doug (and Veronica too)”
